SupMed Steering committee meeting, 23th to 25th May, 2023

Steering committee meeting

Luxor -23^{th} to 25^{th} of May, 2023

Day 1 (23th May, 2023) - Field Visit organized by the Egyptian Association of Sustainable Development (EASD, a key SupMed project Egyptian partner).

09:00 - Departure from Luxor City to EASD Head Office

09:30 - 10:30 - Visit the EASD head office in Luxor City.

The main objective of the visit to the EASD head office in Luxor City is to attend a short presentation detailing EASD's activities in Upper Egypt, with a focus on their partnership with the SupMed project and their effort in supporting farmers and promoting agroecological principles in the region (for more details about EASD, see annex 1).

10:30 - Departure to Elboghday Village (15-minutes' drive)

10:45 - **12:45** - Field visit with farmers, meeting with the head of Elboghday NGO, women participating in the project, and observing the solar panel irrigation system

During the field visit, we will engage with farmers who have been classified into different types based on the farm typology (see annex 2). These farmers received support from the SupMed project through various means, such as training on sustainable farming techniques, access to solar panel irrigation systems, and assistance in adopting agroecological practices. The farmers encouraged to share their experiences with SupMed, highlighting the added value it brings to their commitment to agroecology and environmental stewardship.

We will also have a meeting with the head of Elboghday NGO, a non-profit organization that works closely with SupMed to promote sustainable agriculture and support local communities in adopting environmentally friendly practices. Women participating in the project will be present during the meeting, showcasing their involvement in implementing sustainable farming techniques and the solar panel irrigation system.

12:45 - 13:45 – Open discussion with farmer on the added value of SupMed project

The discussion will focus mainly on the added value of SupMed project and the set up of "farmer commitment" for the adoption of agroecological practices: difficulties and opportunities that offer SupMed for such a perspective.

13:45 - 14:45 - Lunch at the field with farmers

The lunch will take place in the field with the farmers. The main idea is to enjoy traditional during this outdoor lunch and engage in side discussions with the farmers to better understand their experiences and perspectives.

14:45 - 15:45 - Back to Luxor City

Day 2 (24 May, 2023) - SupMed programme progress including description

of main results and next steps

9:00-9:30- Round table, welcome words by the two delegations and participants and the programme of the two days (*Hatem Belhouchette, Othman Elshaikh, SupMed focal point, Egypt*).
